EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gerard Hughes on February 1, 2006.

The application has been amended as follows:

Claims 55 and 56 have been canceled.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or suggest the treatment of a dewaxing catalyst containing an alumina or alumina-containing binder with a stream containing from about 100 to 10000 wppm of at least one oxygenate. The WO 01/07538 A1 reference does not disclose an alumina binder in its dewaxing catalyst and the other references do not disclose or suggest oxygenate amounts within the claimed range. Also, the terminal disclaimers filed on January 18, 2006 are sufficient to overcome the obviousness-type double patenting rejections.

Art Unit: 1764

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
